Spring Ailments.

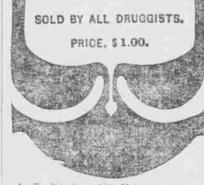

There is an aching and tired feeling: the liver, howels and kidneys become singgish and loactive, the digestion impaired, with little or no appetite, no ambition for any thing, and a feeling that the whole body and mind needs toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbithe will remove it, secures to the secretions a right exit, and by its tonic effect, fully restores the wasted tissues and gives girength in place of weakness. Soc at A. B. Kristing.

PURIFY THE BLOOD

BLOOD PURIFIER ON EARTH.

The efficacy of this remedy in purifying the blood and putting the system in order is without a parallel in the medical world. So thorough and far-reaching is it that it carries its great cleansing and regulating influence to every part of the body, casting out imputities that have resulted from Winter diet, purifying the bowels, strengthening the kidneys, liver and stomach, and preparing the entire body to resist the disease germs which come with warm weather. Those who use this great purifier during the Spring months will stand the heat better and be free from the debilitating allments which invariably strack the body that is cloyged up with impurities.
